
Concrete Footings

Concrete Footings

Concrete modifications needed to accommodate Jib and Bridge Crane installations can be acquired through the CraneWerks network. We can offer standard and custom foundation designs to meet your crane or crane system requirements

Do-it-yourself Foundations

CraneWerks can provide the necessary engineering and design work needed to allow you to consult local concrete installers to price and install projects foundations. Standard and custom designs are available.

Standard CraneWerks Foundations

CraneWerks can provide the following standard jib crane foundations including anchor bolts and footing reinforcing bars:

6' x 6' PAD 4' DEEP
7' x 7' PAD 4' DEEP
8' x 8' PAD 4' DEEP
9' x 9' PAD 4' DEEP
10' x 10' x 4' DEEP
11' x 11' x 5' DEEP

Bridge crane footings:

3' x 3' PAD 12" DEEP
3' x 3' PAD 24" DEEP
3' x 3' PAD 36" DEEP

Custom CraneWerks Foundations

Prices are available upon request
