## **AIR HOISTS - WINCHES - OVERHEAD CRANES - LIFTING SYSTEMS**

### **AIR CHAIN HOISTS - 275 LBS THROUGH 125 MT**

- ◆ Rugged construction and increased durability
- ◆ 100% duty cycle for continuous operation
- ◆ Impervious to dust, dirt, moisture and temperature
- ◆ Smooth start for increased variable speed sensitivity
- ◆ Efficient design equals low maintenance costs
- ◆ Patented lube-free motor for oil-less operation
- ◆ Explosion-Proof / Spark resistant options

Available in top hook mount and plain, hand geared, or motorized trolley versions.

### **AIR WINCHES - 1/2 MT THROUGH 3 MT**

- ◆ Utilizing JDN air hoist motor and gearbox designs
- ◆ 100% duty cycle for continuous operation
- ◆ Impervious to dust, dirt, moisture and temperature
- ◆ Variable speed lever and push button controls
- ◆ Pulling winches equipped with free-spool clutch standard
- ◆ Explosion-Proof / Spark resistant options

Additional options include mounting frames, grooved & split drum, adjustable drum guard, and high speed motors.

### **LIFTING SYSTEMS - 1/4 MT THROUGH 125 MT**

- ◆ Lifting equipment built to customer requirements
- ◆ 100% duty cycle for continuous operation
- ◆ Impervious to dust, dirt, moisture and temperature
- ◆ Low headroom, dual hook, and multiple hoist controls
- ◆ Articulating and straight run trolley versions
- ◆ Food grade / clean room options
- ◆ Explosion-Proof / Spark resistant options

Custom lifting systems are often stocked at JDN for final assembly to customer specifications and quick shipment!

## JD NEUHAUS EQUIPMENT IN ACTION

**Low Headroom  
Pump Station**

**Profi Series in  
Tank Cleaning Facility**

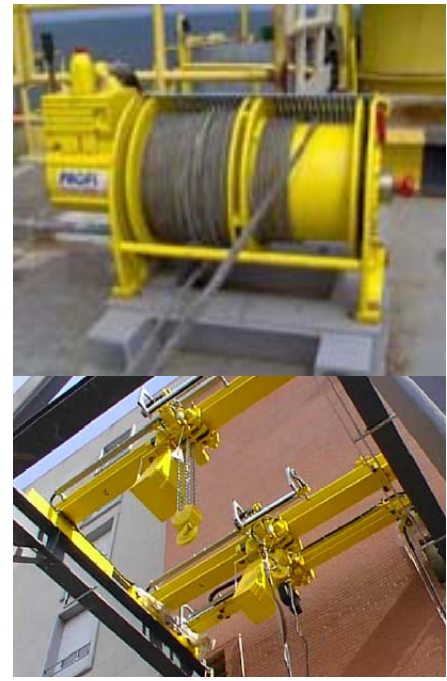

**Twin BBH Systems  
Super-Sack Handling**

**High Capacity 37.5 Ton  
Pipe Section Handling**

**Mini Hoist Loading a Truck  
Wheel into a Lathe**

**Push-Pull Winch on Oil Rig /  
40T Synchronized Crane**
